Dear Sarah:

Attached to this fax, you will find a listing of amended claims which I believe reflects our August 8, 2005 discussion regarding the above-referenced application.

Claims 1 and 3 have been amended to add the language regarding the entire housing assembly being mounted in the ground with only the top end exposed and being flush with the ground.

Claims 2 and 4 were canceled.

As Claim 5 is dependent upon Claim 3, which should now be allowable, it was maintained in its current form.

Claim 6 is dependent upon Claim 5 and, therefore, it was also not modified.

Claim 7 is dependent upon Claim 6 and, therefore, it was not modified and should now be in an allowable condition.

Claim 8 depends upon Claim 7 and thus should now be allowable.

Claims 9 and 10 – In your prior Office Action, you had indicated that both Claims 9 and 10 would be allowable if they were written in independent form. Instead of amending these claims, I have canceled claims 9 and 10 and then written them in independent form as Claims 16 and 17. Let me know if this is not acceptable to you.

Claim 11 is dependent upon Claim 8 and should also now be allowable.

Claim 12 is dependent upon Claim 5 and should now be allowable also.

Claims 13-15 were canceled.

I hope you find this modification in line with what we discussed earlier.

One other matter I need to mention to you is that I will be filing a request to amend the name of the inventor on this application. I have obtained all the necessary documents for this request and it is ready to submit. I wanted to let you know it was coming prior to placing it in the mail.

After you have received this fax and had an opportunity to review it, please contact me so that we can discuss any modifications or questions that you may have.

Thank you for your cooperation in this matter.

Very truly yours,

KERRICK, STIVERS & COYLE, P.L.C
